

Press Release:

North Grove Enterprise adds OrthoMed Inc. as a partner supplier.

Middleboro, Ma – June 13, 2018 – North Grove Enterprise agrees to add OrthoMed Inc. as a valuable resource provider to an already strong lineup of quality hand instrumentation and design/engineering services.

“We have high expectations with the addition of OrthoMed to our list of suppliers with exceptional quality German-manufactured hand instrumentation” said Peter Randall, President of North Grove Enterprise. “OrthoMed adds another layer of depth to our widening portfolio of services and product offerings.”

“I am excited to partner with Peter and North Grove Enterprise with our over 4000+ instruments we offer in our catalog, many being available off the shelf and in stock for your visual assessment” says Ron Dyches, President of OrthoMed.

“We are the surgical instrument specialists, here to transform your most unique instrument vision on to print, prototype, production, and into the hands of the surgeons you serve.”

OrthoMed Inc provides healthcare professionals with the highest quality German-crafted products and services at highly competitive prices. We pride ourselves on being the Surgical Instrument Specialists and being a complete source for all your surgical instrument needs.

North Grove Enterprise continues to represent valuable providers of manufacturing services and hand instrumentation for the orthopaedic field. These include:

- *Weber Instrumente - silicone grip handles and contract manufacturing services
- *Kaiser Technologies - Single-use (disposable) products
- *Hyperjax Biomedical Consultants - contract implant/instrument design services
