

**SPECIALTY**  
METAL

Specializing in  
raw materials for  
the medical  
device market.

**ISO 13485 CERTIFIED**

Titanium

Cobalt Chrome

Stainless Steel Alloys  
455, 465, and 17-4

**Specialty Metal** is your stocking distributor of choice, specializing in raw materials of titanium and cobalt chrome for implants as well as 455, 465, and 17-4 stainless steel alloys for medical instruments in the spine, trauma, and orthopedic markets. With over 75 years of centerless grinding experience, we can provide the best product available to meet your needs with cost effective and rapid response solutions.

### **We are committed to world-class quality:**

- **ISO 13485 certified** with strict quality standards that follow FDA guidelines
- **O.E.M. approved** mill source material partners and suppliers

### **Rapid response solutions to meet your needs:**

- **Centerless Grinding:** We provide in-house centerless grinding for titanium, cobalt chrome, and stainless alloys to the tightest tolerances in the industry
- We are able to provide **pre-heat treated** materials from stock
- **Bar end chamfering**
- **Line marking capabilities**
- **Water jet** and **simple blank machining** per your request
- **Precision Sawing:** We can cut bars with in-house sawing capabilities to provide custom sizes, or shorter lengths suitable for UPS and FedEx ground or next day air shipments, lowering freight costs

### **Providing competitive pricing solutions:**

- **JIT delivery** and **blanket pricing** is available to ensure a secure price while knowing your material can ship to your delivery schedule
